Hosted by Emirates Urological Society

ADVANCED UROLOGY NURSING: FROM SAFE PRACTICE TO EMERGING TECHNOLOGY

Sunday, 4 October | 9:00 - 11:00
JW Marriott Marina Dubai | Meeting Room 1

Join us for a Dynamic Workshop

that bridges safe clinical practice with the future of urology nursing.

Workshop Overview

This interactive workshop is designed to equip urology nurses and healthcare professionals with the latest knowledge and practical skills in patient safety, intravesical therapies, urological device management, and emerging technologies shaping modern urology care. Participants will gain insights into evidence-based nursing practice, hands-on procedural techniques, and the evolving role of artificial intelligence in enhancing patient outcomes.

Chairpersons

Husni Mohammad Abu Saleem, *UAE*

Anas Mahdi Musa, *UAE*

Learning Objectives

Participants will be able to:

- Apply patient safety principles in everyday urological nursing practice
- Understand best practices in urine culture collection and stewardship
- Support the safe administration of intravesical BCG therapy
- Recognize and manage complications associated with urological devices
- Identify risk factors for stone formation and ureteric stent encrustation
- Explore opportunities and limitations of artificial intelligence in patient education and clinical practice
